Subject: RE: FR for the Los Alamos designation.

Bryan:

We are working on evaluating and developing responses for all the comments we received. No decisions will be made until all issues raised have been considered. Right now, I do not expect any decisions before the end of September - at the earliest.

Takk,

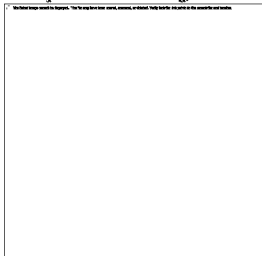

Brent E. Larsen

Hi Brent,

We have not heard from you in a while and I thought I would find out how things are going. Has the EPA made any decision as to how to proceed with the responses from the preliminary designation?

Bryan Aragon, PE, CFM, CSM
Project Manager

Subject: FR for the Los Alamos designation.

Bryan:

A preliminary determination on designation of parts of Los Alamos County as a MS4 requiring an NPDES permit was signed late Friday March 6, 2015. I am forwarding you e-copies of the documents (including the pre-publication Federal Register (FR) Notice) and a color version of the designation area map.. The documents will be going up on our web page for proposed permit notices soon (link in the FR Notice) and the FR Notice should go out in 7-10 days and start a 30 day public comment period. An final decision would be made after considering all comments submitted during the public comment period.

Sincerely,

Brent Larsen
